**COMING ATTRACTIONS.**  
GRAND.—The Kate Forsyth company Monday and Tuesday evenings, February 21 and 22.  
BLACKS.—"Pete" Baker, "Chris and Lena" Thursday, Feb. 24.  
GRAND.—"Lost in London," Friday and Saturday, Feb. 25 and 26.

**LOCAL BREVITIES.**  
John H. Simpson left Monday for Kansas City.

The unexpected club holds a ball tonight.

Mr. John Noel is the guest of Mrs. J. V. Elder.

Mr. H. B. Barr left today for Garden City, Kansas.

Mr. J. E. Hoffelinger, of this city, is in Washington, D. C.

Miss Eleanor McArthur, of New Carlisle, is in the city today.

Dr. Casper had his overcoat stolen at the Arcade hotel last evening.

Charles H. Shurtle has been appointed postmaster of Midway, this county.

Mr. William Sumner, of Cincinnati, is in the city, the guest of Rev. Mr. Warren.

Burt Johnson, of the post office department, is reported down with the diphtheria.

Miss M. S. Tankard, of Newcastle, Pa., is visiting Mrs. M. L. Warner, of North Springfield.

The prohibition county central committee meet this afternoon at Temperance hall for organization.

Mr. Wm. H. Proctorman is in Columbus today, the guest of his daughter, Mrs. Philo B. Watkins.

Dr. J. S. R. Hazard returned this morning from South Charleston where he was called on business.

Tomorrow is Ash Wednesday, and will be appropriately observed in the Catholic churches of the city.

John Gore, who was arrested last night as a forger, is a "tail, crack-brained man, somewhat of the 'crank' order."

Attorneys J. Warren Kiefer and F. M. Hagan have gone to Fostoria, to take depositions in an important case.

Miss Lulah Ketcham, of Cincinnati, is the guest of Miss Stella Moore and the family of Rev. Dr. Runyan, this city.

Cynthia Johnson, aged sixty years, living at 26 West Pleasant street, died at 4:30 this morning of gangrene from a sore foot.

Mr. John Norton and wife, who have been visiting his father, Thomas Norton, returned to Toledo, Kansas, today over the N. Y. & O.

Detective Theo. Keenan, of Cleveland, the employer of the C. V. C. & I. railroad, is in the city looking after his son's interest in the stolen bars.

Rev. Mr. Warren has secured a very pleasant house, overlooking Eden park, at Cincinnati. He will have his study in the Central church, on Vine street.

H. H. Schmidt has an overcoat stolen while in to supper last night at the Lagoon house. The coat was taken from the rack where it is usual to hang the outer garments.

Hon. B. S. Higley, of Youngstown, chairman of the prohibition state executive committee, is in the city in attendance on the meeting of the Clark county central committee.

Rev. L. W. McCall, of the Eastwood Congregational church, Columbus, and Rev. Mr. Smith, of the Columbia church, Cincinnati, are the guests of Mr. C. M. Nichols, today.

The work of demolishing the old frame sicks on Market street, between Main and H. & K. west side, to give place to the handsome new three-story King building, has been commenced.

Miss Minnie Starr, the elocutionist, and father are in the city today, coming from New Carlisle, where the lady gave a very successful entertainment. Miss Starr will appear tonight at Osborn.

One of the policemen found a doctor's pocket medicine case yesterday on Market street, which the owner can secure by calling at C. A. Smith & Co.'s drug store and proving property.

The council called to dissolve the pastoral relation of Mr. Warren with the Congregational church is in session this afternoon. Several Cincinnati and Columbus pastors are present, with delegates from their churches.

The wife of John Smith, who keeps a saloon, corner of Main and Fisher streets, fell down five or six steps, leading from the kitchen at their house on Fisher street and bruised and hurt herself so badly that a physician had to be sent for.

Thos. Norris, a bad-looking specimen of white humanity, from London, who was dunned of color, were run in from the hill at noon yesterday, for drunk and disorderly. Norris claims the Anderson woman relieved him of \$7 in money.

**THE THEATERS.**  
"Faithful Heart" at the Grand Last Night Announcement of Coming Attractions.  
A fair audience witnessed Miss Kate Forsyth and her company at the Grand opera house last night in "Faithful Heart." The best that can be said of the performance is that the play is capably mounted and very richly dressed, the toilet of the ladies being more than elegant. But the piece itself, as slow in action and feeble in plot, and left rather an impression of disappointment. The material used in it is of the conventional type, and there are many crudities in its arrangement. Miss Forsyth did well as Madeline, and was powerful in the emotional passages. She was twice recalled before the curtain. Mr. Frank Loease as Andre Lefevre was scarcely worth the part he played, but Mr. Henry Holland as Jean Rodol, the poet, was the life of the performance. The rest of the company were unobjectionable and did the best they knew with lines that were frequently stupid.

MISS KATE FORTSYTH

will display some beautiful dresses in the play of "Marcelle," tonight, her wardrobe having been replenished by Worth and other famous Paris authorities on costumes. A ball-dress of pink and pearl-gray is particularly striking. It is draped, with the corset lace, and ornamented with braids of grey and pink pearl embroidery. This passerelle is lustrous, not iridescent, and is a novelty in dress trimming, as it resembles genuine pearls. Among Miss Forsyth's other new ball-dresses is a superb one of canary silk and crepe embroidered in "CHRIS AND LENA" at BLACK'S.

Interest does not flag for a moment in the appearance of Springfield's favorite comedian, Pete N. Baker, late of Baker and Eaton, at Black's Thursday evening, in "Chris and Lena." The St. Louis Sunday Critic says: "Pete N. Baker, when a big fall of popular favor, Baker and Eaton, played 'Chris and Lena,' and made both fame and fortune. Baker is now alone, but his rendition of 'Chris at the People's' is a new and more successful than ever."

On Friday and Saturday evenings, Feb. 25th and 26th, with Saturday matinee at 2 p. m. for ladies and children, "The St. Louis Post-Dispatch" says: "Last night in 'Lost in London' opened at the People's last night to an immense house, and made a record for the theater."

A post-mortem examination of such cases as this, which is the case of a child, is a most interesting study. The child is found dead, and the physician is called in to examine the body. **IS THERE ANY HOPE?**  
New and Important Opinions of Pulmonologists. Dr. J. B. Rogers, a leading French doctor, has a new treatment for consumption. He gives an emulsion of carbonic acid and sulphurated hydrogen gases, the latter gas carrying the former into every part of the throat and lungs. This treatment, too, is directed at effects—every particle of blood which passes through the lungs is purified. What this emulsion has been stated by perhaps the highest pulmonary authority in the world, i. e., the Brompton Hospital for Consumption, in London, England. This emulsion every year carries off from one-seventh to one-fifth of the entire population of England. Dr. Payne also says that one-half the total number of deaths from all other causes have since the use of this emulsion, which only require some irritant to develop. Dr. Hermann Breiner, an eminent German authority, says that consumption is caused by deficient nutrition of the lungs, by poor blood. These authorities cannot be disputed. The lungs work by recognizing them. The emulsion is the irritant in the blood that causes the development of the seeds which Dr. Breiner says is dormant in the blood. Every particle of blood which passes through the lungs and heart, also goes through the kidneys, and if they are in the least deranged they cannot rid the blood of the toxic matter. The kidneys are like a sieve, and if they are clogged up, the blood is not purified. The kidneys are like a sieve, and if they are clogged up, the blood is not purified. The kidneys are like a sieve, and if they are clogged up, the blood is not purified.

DR. J. B. ROGERS

Dr. Hermann Breiner, an eminent German authority, says that consumption is caused by deficient nutrition of the lungs, by poor blood. These authorities cannot be disputed. The lungs work by recognizing them. The emulsion is the irritant in the blood that causes the development of the seeds which Dr. Breiner says is dormant in the blood. Every particle of blood which passes through the lungs and heart, also goes through the kidneys, and if they are in the least deranged they cannot rid the blood of the toxic matter. The kidneys are like a sieve, and if they are clogged up, the blood is not purified. The kidneys are like a sieve, and if they are clogged up, the blood is not purified. The kidneys are like a sieve, and if they are clogged up, the blood is not purified.

Dr. J. B. Rogers, a leading French doctor, has a new treatment for consumption. He gives an emulsion of carbonic acid and sulphurated hydrogen gases, the latter gas carrying the former into every part of the throat and lungs. This treatment, too, is directed at effects—every particle of blood which passes through the lungs is purified. What this emulsion has been stated by perhaps the highest pulmonary authority in the world, i. e., the Brompton Hospital for Consumption, in London, England. This emulsion every year carries off from one-seventh to one-fifth of the entire population of England. Dr. Payne also says that one-half the total number of deaths from all other causes have since the use of this emulsion, which only require some irritant to develop. Dr. Hermann Breiner, an eminent German authority, says that consumption is caused by deficient nutrition of the lungs, by poor blood. These authorities cannot be disputed. The lungs work by recognizing them. The emulsion is the irritant in the blood that causes the development of the seeds which Dr. Breiner says is dormant in the blood.
